

I'm Your Good Friend 1995 / Sunway

I Feel You

Music:Edison

Lyrics:George Cockle/Mark Cass

Looked all day long
For the right words to the song
Just to say I've been thinking about you
Why did I wait
Why did I remember too late
That all roads would lead me straight back to you

I see you giving it up
Moving back home
I hear you found a new love
To call your own
Though it's true
We had our love broken apart
I feel you lingering still here in my heart

I feel you
I feel you

Am I too late
To say I made a mistake
Don't know what I was thinking leaving you
So far away
Nearly called your number today
Why's it so hard to say
I love you

I see you
Watching a rose after a bloom
I hear you
Singing a song ending too soon
I feel you
Here in the warm ray of the sun
I feel you
In every moment that you're gone
I feel you
I feel you

I feel you

I feel you
I feel you
I feel you
