

Admiration for Mokupuni Style / Hoopers

Together Alone

Music:Hirotsugu KOITA-bashi

Lyrics:George Cockle

I was standing by Hanalei Bay
It was a bright and sunny summer's day
She was walking with another man

Ten years
Since we last said good-bye
Five years
Since all the tears I cried
One year
I was going to make it right

What was it that tore us apart?
Leaving us so sad and lonely
Never thought that I would find her
Once again in this paradise

Years have come and gone
If I had really loved her
All those years so long ago
Was it our years?
If I had really loved her
My heart would have let her go

I sense it
Does she feel the same?
She was more than a friend
Hearts are together but beating together alone

We said
You're the love of my life
I said
Won't you please be my wife?
She said
Please let me spread my wings

Time has
Changed the way that I feel

Time has
Let my broken heart to heal
Time has
Showed me what love was real

Was it I that tore us apart?
Leaving us so sad and lonely
Never thought that I would find her
Once again in this paradise

Years have come and gone
Now that I really love her
Till Forever I'll be free
Was it our years?
Now that I really love her
My heart is smiling silently

I sense it does she feel the same
She was more than a friend
Hearts are together but beating together alone

Years have come and gone
Now that I really love her
Till Forever I'll be free
Was it our years?
Now that I really love her
My heart is smiling silently

I sense it does she feel the same
She was more than a friend
Hearts are together but beating together alone
Beating together but beating together alone
